

Dear Colleagues,

Welcome once more to 2020.

What is your new year plan? Have you decided to grow your career, further expand your business, build a family, and gain proper control of your finances? How are all these coming on towards the end of the first month of the new decade of **SUSTAINABILITY**? For any of this, we sincerely wish you well.

For us at IN-CSR, we have decided to make 2020 a client-centric year. Having made significant progress in 2019 – not only can we train and certify individuals on different ISO standards and provide customized training programmes to meet different needs, we now certify products, processes, systems, organisations etc. as PECB accredited Management Systems Auditors in accordance with ISO/IEC 17021 and ISO/IEC 17065. We also trained a record number of practitioners, consulted for some of Africa's biggest companies in Dangote Group and a number of Oil and Gas companies; reviewed the National Action Plan on Business and Human Rights in partnership with National Human Rights Commission of Nigeria (NHRC) and the Nigerian Stock Exchange (NSE); helped the Government of Tanzania to benchmark their Consumer Protection Framework on Nigeria and South Africa; arguably setting new standards for an Integrated Health, Safety, Social and Environmental Safeguards for Agency Banking in Nigeria.

Recently, we have as well been certified by the Federal Ministry of Environment after a number of presentations and assessment of previous Environmental and Social Impact Assessments (ESIA), Environmental and Social Management Plan (ESMP), Environmental and Social Audits and other Environmental and Social projects completed in recent years, to provide Environmental Consultancy Services including Baseline/Post Impact Studies & Compliance Monitoring and Audit, Waste Management Technology, Engineering Oil & Gas Pollution Control & Remediation.

Year 2020 is surely promising!

We have scheduled lots of exciting courses and certifications that will help you advance your career and build the capacity to grow your business. We also have other customized programmes on call such as Sustainable Procurement, CSR Practitioners' Training, ESG for Sustainability, etc.
